## Global Project on Training in Pediatric Laparoscopy LapSim

Participating Centers in the project will during a specified period of time have a possibility to purchase a LapSim Basic Skills 2007 system at a substantially reduced price.

The order will have to be placed between October 1, 2007, and April 30, 2008. Installation and education will take place on site, on a date to be discussed later.

The offers presented below are valid only if the total amount of software licenses exceeds 10. Reservations for price increases on instruments and computers are valid for all prices offered.

Offer:

System	Price
LapSim Basic Skills version 2007 (latest version, release January, 2007) A basic laparoscopy training system with eleven different modules , and graphical user interface	\$22,000
Simball (Non-haptic hardware interface) instruments Upgrading and support agreement has to be signed when acquiring a system but it is free of charge the first 360 days.	\$10,400
Installation/Education (2 days incl travel and accommodation)	\$ 2,125

<b>Delivery terms:</b> To purchasing Hospital ( <b>Incoterms 2000</b> )
<b>Payment terms:</b> 30 days net

## Spread Payment Plan:

If the initial investment is a burden for the center, Surgical Science has a possibility to offer a Spread Payment Plan. The customer purchases the equipment with extended payment terms.

The customer has three options:

### 1) 12 months Spread Payment Plan.

Initial Down Payment: Instruments \$10,400 + Education/Installation \$2,125--Total \$12,525

The sum of the total software purchase + 10% is divided in 4 quarterly payments.

### 2) 24 months Spread Payment Plan.

Initial Down Payment: Instruments \$10,400 + Education/Installation \$2,125--Total \$12,525

The sum of the total software purchase + 15% is divided in 8 quarterly payments.

### 3) 36 months Spread Payment Plan.

Initial Down Payment: Instruments \$10,400 + Education/Installation \$2,125--Total \$12,525

The sum of the total software purchase + 20 % is divided in 12 quarterly payments.

For the above options, the Initial Down Payment is based on a purchase of one Simball set of instruments and installation and training.

If the center wants Surgical Science to provide a computer/monitor, haptic hardware, or an electronically height adjustable cart, the costs for these additions are added to the Initial Down Payment.

# surgicalscience

For sites interested, Surgical Science can provide a computer, details below.

Offer:

Computer	Price
Dell Computer suitable for running LapSim with flat screen	\$3,500

If centers want to buy computer themselves, please contact Surgical Science AB for correct specifications.

Add on possibilities:

For centers interested, Surgical Science can offer add-on possibilities to the system purchased for participation in the project.

The add-on possibilities will have to be ordered together with the basic system in order to get the prices below. If ordered after the offer period, normal list prices are valid, unless specific quotation is sent.

Offer:

Product	Price
LapSim Dissection Software focusing on training on critical steps of a cholecystectomy procedure.	\$13,300
LapSim Gyn Software with four different gynecological procedures; Tubal Occlusion, Salpingectomy, Tubotomy and Myoma Suturing	\$15,400
Simball Non-haptic interface device with camera—add	\$ 5,800
Xitact Haptic Hardware (Haptics included in all LapSim software; however, a haptic interface is needed to get force-feedback)	\$36,500
Electronically Height Adjustable Cart	\$ 2,000
