

## **IPEG LONG TERM RESEARCH FUND (LTRF)**

The IPEG Executive Committee is pleased to announce the formation of IPEG's Long Term Research Fund (LTRF). In just a few short years IPEG has grown from what once was a handful of pediatric surgeons to an international organization with 500 members. The IPEG mission is:

- Education
- Research
- Improved patient care

IPEG is at a crossroads in our development and this calls for an increase in our ability to foster research and education and carry out our mission.

A primary goal of the LTRF is to award grants to IPEG members to further their research. Our highest hope is that the LTRF will support original research by our own international membership.

Please consider making a contribution toward this effort.

Sincerely,

Steve Rothenberg, IPEG Development Committee Chairman
