The commitment to exceptional patient care begins with revolutionary discovery. University Hospitals Case Medical Center is the primary affiliate of Case Western Reserve University School of Medicine, a national leader in medical research and education and consistently ranked among the top research medical schools in the country by U.S. News & World Report. Through their faculty appointments at the Case Western Reserve University School of Medicine, physicians at UH Case Medical Center are advancing medical care through innovative research and discovery that bring the latest treatment options to patients.
Wednesday August 24, 2011  **All Times are Eastern Standard Time**

8:00 am  Web testing and Emerging Technology session
9:00 am  Introduction  
   Todd Ponsky, MD
9:05 am  Indications for Pectus Excavatum Repair  
   Donald Nuss, MD
9:30 am  Pre- and Post-Op Pulmonary and Cardiac Test Results  
   David Sigalet, MD
9:40 am  Discussion / Q&A
10:15 am  BREAK

### Techniques for Minimally Invasive Pectus Excavatum Repair

10:25 am  The Norfolk Technique  
   Donald Nuss, MD
11:05 am  The Kansas City Technique  
   Whit Holcomb, MD
11:15 am  The Berlin Technique  
   Klaus Schaarschmidt, MD
11:25 am  The Korean Technique  
   Hyung Joo Park, MD
11:35 am  The Johns Hopkins Technique  
   Paul Columbani, MD
11:45 am  The Denmark Technique  
   Hans Pilegaard, MD
11:55 am  Tips and Tricks  
   (Bar Stabilization, Bar Removal, Flaring, etc)  
   Patricio Varela, MD
12:10 pm  Discussion

12:40 pm  Complications and Post-op Management  
   Robert Kelly, MD
1:00 pm  Discussion / Q&A
1:10 pm  BREAK

### Techniques for Minimally Invasive Pectus Carinatum Repair

1:20 pm  Carinatum Overview  
   Marcelo Martinez-Ferro, MD
1:40 pm  The Minimally Invasive Technique for Pectus Carinatum  
   Horacio Abamson, MD
1:55 pm  The Norfolk Experience with Carinatum Treatment  
   Robert Kelly, MD
2:10 pm  The Chile Experience (Thoracosopic Cartilage Resection)  
   Patricio Varela, MD
2:25 pm  Discussion / Q&A
2:55 pm  Difficult Cases  
   Faculty
3:50 pm  Q&A / Final Comments
4:00 pm  Adjourn
These virtual symposiums made possible by an alliance with the following pediatric surgical societies:

IPEG
(International Pediatric Endosurgery Group)

ASPEP
(Peruvian Pediatric Endosurgery Association)

CIPESUR

OMED
World Organization of Digestive Endoscopy

Hospital Privado de Ninos Fundacion Hospitalaria
Buenos Aires, Argentina

CAPS
(Canadian Association of Paediatric Surgeons)

AAPS
(Asian Association of Pediatric Surgeons)

CSPS
(Cambodian Society of Pediatric Surgeons)
The minimum system requirements to attend this live web symposium include:

- PC-based attendees: Windows® 2000 or Newer with speakers.
- Macintosh®-based: Mac OS® X 10.4 (Tiger®) OR NEWER with speakers
- Internet Explorer 6.0 or greater, Safari 3.0 or greater, or Firefox 2.0 or greater Adobe Flash Player 8.0 or greater
- Participants should have a minimum 6 Mb/s download speed. We recommend participants join in on a DSL connection or higher and be hard-wired to the internet.
- Attempting to view or participate in the meeting with a configuration which is lower than minimum requirements will result in dropped audio, video or both.

Web Symposium Description

This international web symposium on chest wall deformities is intended for pediatric surgeons, general surgeons, thoracic surgeons, pediatricians and family practitioners from the United States and throughout the world, who have an interest in discussing controversies surrounding the evaluation and management of pectus excavatum and pectus carinatum repair. This symposium will include interactive discussions, led by international leaders in the field addressing the evaluation and treatment of chest wall deformities. Participants will have the opportunity throughout the symposium to discuss these issues and their questions with the faculty.

Educational Objectives

- Identify major controversies regarding the evaluation and treatment of chest wall deformities
- Understand different treatment options for pectus excavatum and pectus carinatum repair
- Define new and future advances in the treatment of chest wall deformities

Live International Web Symposiums

- Tricks of the Trade: Colorectal Surgery
  - October 13, 2011

- Tricks of the Trade: Thoracic Surgery
  - November 18, 2011

- Great Debates in Urology: Are You Ready to Rumble?
  - December 9, 2011
